TAKE YOUR WORKSPACE TO THE NEXT LEVEL.

ELGATO IS A GLOBAL LEADER IN AUDIO VISUAL TECHNOLOGY FOR THE RAPIDLY EVOLVING WORKSPACE.

Quality and ease of use are the cornerstones of our design philosophy.

From video and sound to lighting, mounting, and beyond, our products streamline workflows and bring people together. Powered by decades of expertise in hardware and software design, we build intelligent solutions for professionals in business, education, healthcare, hospitality, entertainment, and countless other sectors.

Elgato was founded in 1999. In 2018, Corsair acquired the brand and its employees. Based in Germany and California, the company distributes products in over seventy five countries around the world.
Connect a wealth of devices to your Mac or PC with the CORSAIR TBT100 Thunderbolt™ 3 Dock, boasting up to 40Gbps bandwidth while efficiently charging your laptop with smart charging technology.

With Cam Link 4K, turn your DSLR, action cam or camcorder into a high-quality webcam, and look your sharpest in video calls.

Ultra-bright, dimmable, and easy to adjust via the Control Center App - Key Light Air makes your workspace and camera feed shine.

Launch websites, control apps, orchestrate teleconferences like a boss, and much more. Stream Deck lets you easily customize unlimited shortcuts, and put them directly at your fingertips.

You need a broadcast-grade microphone that plugs directly into your setup, and a mixer to blend audio sources with ease. Meet Wave:3 - your complete audio solution.

TAILOR YOUR WORKSPACE TO YOUR NEEDS
USB CAMERA CONNECTOR
Turn a DSLR, camcorder or action cam into a webcam

BEST CAMERA QUALITY
Leagues ahead of any webcam

MORE CONTROL
Zoom in/out, wide-angle, soft-blur background

PLUG & PLAY
Automatically detected in popular video conferencing apps

AND MANY MORE...
Video conferencing and virtual education are more prominent and professional than ever. However, there’s a problem — popular apps like Zoom, Slack, and Teams only allow one camera input. The solution? Use Multiview to combine two, three, or four HDMI inputs into a single video output.

**Internal PCIe Card:**
Four HDMI Inputs

**Multicam Capture:**
DSLRs, action cams, laptops, etc.

**Stunning Quality:**
Stream or record in 1080p60
Full HD or 4K30

**Live Production:**
Independent source control in OBS, vMix, etc

**Video Conferencing:**
Add four cameras to Zoom, Microsoft Teams, etc

**Stream Deck Integration:**
Tap to switch cameras and Multiview modes
Elgato Prime Lens
1/2.4" 24 mm* all-glass studio quality optics.

Sony® STARVIS™ CMOS Sensor
Optimized for indoor use.

True Full HD
Stunning 1080p resolution at a fluid 60 fps.

Up to 82 degree field of view
Frame your face or reveal your surroundings.

Optimized Fixed Focus
Move freely and always stay in focus.

Camera Hub App
Set FOV, brightness, exposure, and more.

Flash Memory
Save video settings directly to the camera.
PREMIUM MICROPHONE AND DIGITAL MIXING SOLUTION

- Low Profile Mic Arm
- Streamlined and Fully Adjustable
- All-Metal Construction, Hidden Cable Channels

WAVE:3
IMPECCABLE CLARITY AND BROADCAST-QUALITY SOUND

Onboard control dial for mic sensitivity, headphone volume, and microphone/computer mix balance

Capacitive touch sensor mutes the microphone without producing mechanical sound while the LED ring turns red for absolute peace of mind

reddot winner 2021
DIGITAL MIXING SOLUTION

Mix up to 9 audio inputs
Add speech recordings from VLC media player, music on Spotify, and audio from any other applications to conference calls

Create two independent audio mixes – one that only you can hear and another for meeting participants
ADJUSTABLE LIGHT SETTINGS
Ultra-bright, fully dimmable, warm to cold white

EDGE-LIT WITH MULTI-LAYER DIFFUSION
Indirect, flicker-free, even illumination guarantees comfort during long conference calls

INTUITIVE CONTROL
Adjust settings via the onboard buttons or the app on desktop or phone
VIRTUAL LIGHTING HUB

Precise color temperature and brightness adjustment of all Elgato lights

Save and recall light settings for different times of the day

Control using PC, Mac, iOS, Android or Elgato Stream Deck
YOUR WORKFLOW CENTERPIECE

Launch websites, clips, presentations, spreadsheets, etc.
Mute your mic or end the call
Post precomposed comments
Paste graphics and text
Change video call views (e.g. from camera to worksheet)
Trigger pre-defined transitions, breaks, countdowns etc.
Control all Elgato Lights, Wave:1, Wave:3 and Cam Link Pro

...AND MUCH MORE

ENDLESS CAPABILITY AT YOUR FINGERTIPS
STREAMLINE YOUR WORKFLOW

Three pedals poised to launch unlimited actions.
One-touch operation to control software, hardware, etc.
Remain focused on your audience while you control slides, toggle cameras, mute your mic or end the call.

...AND MUCH MORE
MODULAR RIGGING SYSTEM

Multi Mount lets you position your camera, light or phone at any angle, while keeping your workspace tidy and your workflow optimal.
Wave Panels transform any space into a professional acoustic environment. Two foam layers of varying densities reduce both room echo and reverberation. A hexagonal profile means Wave Panels can be configured to suit any space while proprietary EasyClick Frames make installation a breeze.
ALL YOUR DEVICES, JUST A CABLE AWAY

CORSAIR TBT100 THUNDERBOLT 3 DOCK

CORSAIR TBT100 Thunderbolt 3 Dock connects a wealth of devices to your Mac or PC, boasting up to 40Gbps bandwidth while efficiently charging your laptop with smart charging technology. Use USB, HDMI, UHS-II SD Card, 3.5mm audio and more. It looks great and easily fits into any setup. Supports dual monitors. Compatible with all Elgato products.
**BACKGROUND AND RIGGING SOLUTIONS**

**Green Screen** a portable and collapsible chroma key panel optimized for background removal. The auto-locking frame, wrinkle-resistant fabric and aluminum hard case, ensure an ultra-quick setup and teardown.

**Green Screen MT** a wall- or ceiling-mounted chroma key surface that requires zero floor space. With auto-locking and auto-rewinding technology, durable wrinkle-resistant fabric and robust metal casing.

**Multi Mount** is a modular rigging system forged from metal. It lets you mix components (sold separately) to match your workflow. Lights, cameras, phones and more – prop your gear at any distance or angle.

**AUDIO SOLUTIONS**

**Wave 1** is your gateway to microphone and digital mixing mastery, fusing plug and play convenience with broadcast-grade circuitry. Turn the control dial to adjust monitor volume or press it to mute your mic feed. And combine all your audio sources, plus create two independent mixes with the Wave Link app.

**Wave Mic Arm LP** A studio-grade boom arm for your premium microphone, Wave Mic Arm LP sits below the shoulder line for an unobstructed view.

**Wave 3** is a premium microphone and digital mixing solution that fuses plug and play convenience with broadcast-grade circuitry. Silence your mic feed upon the lightest touch with the capacitive mute sensor. And combine all your audio sources, plus create two independent mixes with the Wave Link app.

**Wave Panels** with dual density foam construction, proprietary EasyClick Frames and a modular design, Wave Panels transform any space into a professional acoustic environment.

**LIGHTING SOLUTIONS**

**Key Light Air** a professional Wi-Fi enabled LED panel with a small footprint. Edge-lit architecture with multi-layer diffusion technology ensures soft illumination that’s easy on your eyes. The Control Center app gives you ultimate flexibility. You’ll want to use it for everything.

**Ring Light** designed to flatter the skin, eliminate shadows, and give your eyes that special sparkle without glare. Adjust light settings via the onboard buttons or app, and set the camera angle independently thanks to the camera ball mount.

**Key Light Mini** a professional Wi-Fi enabled LED panel with a small footprint. Edge-lit architecture with multi-layer diffusion technology ensures soft illumination that’s easy on your eyes. The Control Center app gives you ultimate flexibility. You’ll want to use it for everything.
**VIDEO SOLUTIONS**

**Cam Link 4K**
Use your DSLR, camcorder or action cam as a professional webcam on your PC or Mac. Stream or record in stunning 1080p60 quality or even 4K at 30 fps. And broadcast live via any platform in no time thanks to ultra-low latency technology.

**Cam Link Pro**
A powerful video mixer engineered for multicam production. Cam Link Pro equips you to capture four HDMI signals from cameras, computers, laptops, tablets and more. Stream or record in 4K or 1080p60 Full HD, get independent source control in broadcast software, and add four cameras to video conferencing apps with Elgato Multiview.

**EpocCam**
Easily turn your phone into a high definition Mac or PC webcam. Perfect for business, online teaching, live streaming and more. EpocCam works seamlessly with popular video conferencing and broadcast software like Zoom, Microsoft Teams, and OBS Studio.

**Facecam**
Features a pro-grade lens with a cutting-edge image sensor. High-speed circuitry that outputs stunning uncompressed video. And onboard memory to recall image settings on all your computers.

**WORKFLOW CONTROL SOLUTIONS**

**Stream Deck**
Takes software control to a whole new level, seamlessly integrating with your favorite tools and platforms. 6, 15 or 32 customizable LCD keys let you instantly trigger unlimited actions with a tap. So you can easily power through your workflow like never before.

**Stream Deck Pedal**
Gives you instant hands-free control of your apps and tools. Go live, mute your mic, toggle cameras, and control almost anything in your setup. Hit the Stream Deck Store for app plugins, thousands of royalty-free tracks, sound effects, and more.

**THUNDERBOLT & USB SOLUTIONS**

**CORSAIR TBT100**
Connect a wealth of devices to your Mac or PC, boasting up to 40Gbps bandwidth while efficiently charging your laptop with smart charging technology. Supports dual monitors.

**USB100 Expansion Hub**
Keep all your USB devices connected with the CORSAIR USB100 7-Port USB Type-C/USB Type-A Expansion Hub, with three USB Type-C ports and four USB Type-A to simultaneously connect a host of devices to your PC.
